Leesha Doecke

Thanks to the hundreds of people who made this project possible.

-Thank you so much for participating, God bless you richly!

*Due to the large number of submissions received, we chose the clips that best fit this episode's vision and context. The chosen clips have been featured for a short time period in order to include all 50 countries. It is our understanding with participants that the video submitted was subject to approval and a release form was signed upon submission. Acceptance of submissions has nothing to do with talent or singing ability but everything to do with how well the video fits in the production's overall creative vision. We wholeheartedly appreciate every submission as they were all sung for the love of Jesus, however, it is not feasible to use each individual video received for creative purposes and we sincerely thank all those who submitted. We've included subtitles in English as the original song was written in Old English and translated into different tongues around the world. Some versions and translations differentiate from English in word and order, but have been placed in the video in the order the original song is sung. We have included credits separately in order to focus the viewer on Jesus Christ, while giving honor to whom it is due.

Thank you!

Our Mission:

To normalize the Great Commission through regular, impacting, story-based media.
